2. Click on **Anuprati Portal** to enter the system.

3. choose **Login Type: Student**. Your student dashboard will open.

# Preference Upgradation Option

1. On the left-side menu, click on **Preference Upgradation**.

2. A new page will open.

3. Your previously filled preference list will be displayed.

4. The institute allotted in the **1st Merit List** will also be shown.

Possible Cases After Allotment

- After reaching the Preference Upgradation page, **two different scenarios** can occur based on which preference you received in the 1st merit list.

- Case 1: If the student received their 1st Preference in the 1st Merit List

- In this case, the student has already been allotted the **top-most preferred institute**.

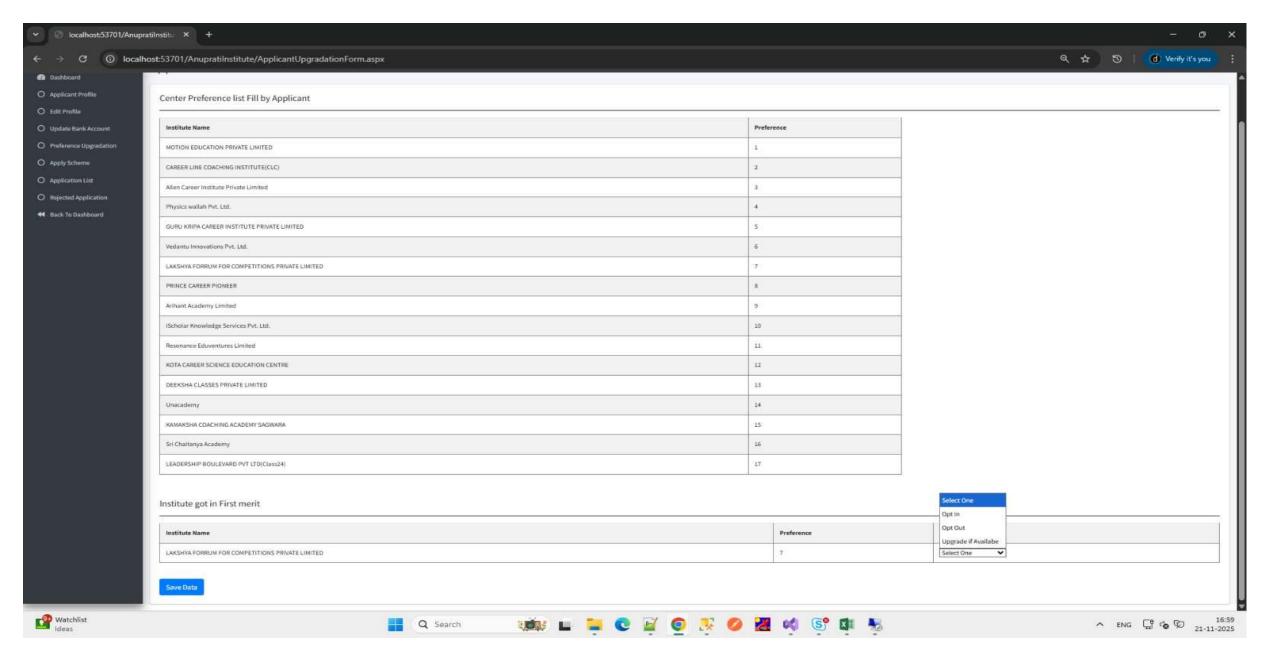

Case 1

a) Opt In — (Join the allotted 1st preference institute)	b) Opt Out — (Do not join and exit from the scheme)
This means the student **accepts the allotted institute**.	The student **rejects the allotted seat**.
There is **no possibility of upgradation**, because the student has already received the highest choice.	No further chances and no benefits under the scheme will be given.
	Choose this only when the student does **not want to participate anymore**

Note: If the student does **not select any option**, the system will automatically consider **Opt In** as the default selection.

Case 2: If the student received any preference other than 1st Preference in the 1st Merit List

- In this case, the student has been allotted an institute that is **lower than their top preference**, so more choices are possible.

- The system will show **3 options**:

Case 2

a) Opt In — (Join the currently allotted institute)	b) Opt Out — (Do not join and exit from the scheme)	c) Upgrade If Available — (Consider for higher choices)
The student agrees to **join the allotted institute**.	The student chooses **not to join any institute**.	Student wants to try for a **better/higher preference option**.
No further upgradation will be attempted.	Choose only if the student is not interested in the scheme at all.	The system will check if seats are available in a higher preferred institute. • If vacancy exists → Student will be upgraded to higher preference. • **If vacancy does NOT exist → Previously allotted institute remains final.** Recommended when the student is **satisfied with the allotted institute but prefers a higher-choice option if possible**.

Note: If no option is selected, the system will automatically treat it as **Opt In**.
